

DERBICOLOR P-FR-CR

MATERIALS & RESOURCES

Recycled Content (MRc3)

DERBICOLOR is manufactured using recycled material. The percentage of recycled material is calculated by individual roll weight. Recycled content = (post-consumer + 1/2 pre-consumer)

RECYCLED CONTENT	POST-CONSUMER WEIGHT	PRE-CONSUMER WEIGHT
2.5 %	1 %	3.0 %

Regional Materials (MRc3)

If the location of the project is within 100 miles of the manufacturing site, LEED credit may apply.

MANUFACTURER	LOCATION
Performance Roof Systems	Kansas City, MO 64130

Building Product Disclosure and Optimization (MRc2)

Environmental Product Data (EPD) and Health Product Declaration (HPD) sheets are available on our website at www.performancerooftsystems.us.

SUSTAINABLE SITES

Heat Island Reduction (SSc5)

The table highlights CRRC verified initial and three-year SRI values confirming Cool Roof qualification.

PROPERTY	ASTM	INITIAL	3 YEAR*
Solar Reflectance	C1549	0.69	0.63
Thermal Emittance	E1371	0.91	0.90
Solar Reflectance Index	E1980	85	76

* Three year values shown are the CRRC Rapid Ratings values

DISCLAIMER: All LEED rating point references are based on suggested applications of Performance Roof Systems products. LEED applicants should use their own objective determinations of product attributes for certification purposes.
