

DERBIGUM XPS

MATERIALS & RESOURCES

Recycled Content (MRc3)

DERBIGUM is manufactured using recycled material. The percentage of recycled material is calculated by individual roll weight. Recycled content = (post-consumer + 1/2 pre-consumer)

RECYCLED CONTENT	POST-CONSUMER WEIGHT	PRE-CONSUMER WEIGHT
1.5 %	0 %	3.0 %

Regional Materials (MRc3)

If the location of the project is within 100 miles of the manufacturing site, LEED credit may apply.

MANUFACTURER	LOCATION
Performance Roof Systems	Kansas City, MO 64130

Building Product Disclosure and Optimization (MRc2)

Environmental Product Data (EPD) and Health Product Declaration (HPD) sheets are available on our website at www.performancerooftsystems.us.

DISCLAIMER: All LEED rating point references are based on suggested applications of Performance Roof Systems products. LEED applicants should use their own objective determinations of product attributes for certification purposes.
