

DERBIGUM PERMA-TITE GOLD CANTILEVER COPING

DESCRIPTION

DERBIGUM PERMA-TITE Gold Cantilever Coping is the perfect solution for attachment to a parapet wall with a non-structural exterior building facade. Conditions such as these, don't allow for traditional anchoring to the exterior building structure, but PERMA-TITE's unique support brackets bring extra stability to the roof edge system when attachment is required up to 6 inches away from the outside facade. It has a full snap-on design with 16-gauge, galvanized steel anchor clips and factory-applied stainless steel springs that ensure long-term positive attachment. DERBIGUM PERMA-TITE Gold Cantilever Coping is custom fabricated in sizes to meet specific job requirements.

FEATURES & BENEFITS
