

# PERLOK METAL INSULATION PLATES

## DESCRIPTION

PERLOK METAL INSULATION PLATES are designed to secure insulation, coverboards and base sheets to approved substrates. The plate's circular design and reinforcing ribs provide exceptional strength and resist wind uplift forces.

## PRODUCT SELECTION

**PERLOK 3" Metal Insulation Plate** are approved for use with PERLOK #12DP, #14HD, #14SSHD, #15EHD, Fluted Concrete Nail and 1/4" Concrete spike fasteners.

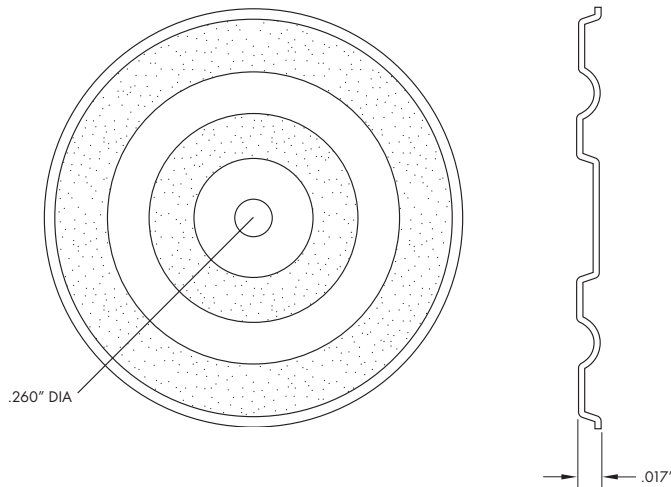

**PERLOK 3" Recessed Metal Insulation Plates** have a deep center recess to accommodate hex-headed fasteners and prevent screw heads from penetrating the membrane. Approved for use with PERLOK #12DP, #12DPH, #14HD, #14SSHD, #15EHD fasteners.

## TYPICAL PROPERTIES\*

PROPERTY	VALUE
<b>Material</b>	26 Gauge Steel
<b>Coating</b>	Galvalume AZ-50
<b>Diameter</b>	3 inch
<b>Thickness</b>	.017 inch
<b>Hole Diameter</b>	.260 inch
<b>Corrosion Resistance</b>	<15% Red rust after 30 cycles
<b>Recycled content</b>	49%
