APPLICATION

SENTINEL® PVC Inside and Outside Corners are installed to the membrane using a hot air welder. Refer to Performance Roof Systems specifications and installation instructions for additional application guidelines.

STORAGE & HANDLING

All materials must be stored in a clean, dry location and cover as necessary to protect from environmental damage such as extreme cold, heat or moisture. Monitor varying environmental conditions during storage, handling and application.

**Outside Corner
(Silver Art)
Sku # M502**

**Inside Corner (White)
Sku # P505**
