

DESCRIPTION

SENTINEL® VCM is a 24 gauge galvanized metal sheet with a 20 mil SENTINEL® PVC membrane laminated to one side. SENTINEL® VCM is also available in 24 gauge Stainless Steel or 0.040" Aluminum by special order.

APPLICATION

SENTINEL® VCM can be used to fabricate metal flashings, pitch-pans and edge details. It allows the user to create effective methods in detailing PVC-to-metal transitions. The vinyl coated metal can be used in both mechanically fastened and adhered roofing systems. Refer to Performance Roof Systems specifications and installation instructions for additional application guidelines.
