Note: The above components and their percentages are provided for health and safety purposes, ONLY. This do ument should not be construed as a guaranteed analysis of any specific lot or as specifications for the product. Some product identifiers are withheld as a trade secret in accordance with 29 CFR 1910.1200.

SECTION 4 FIRS	ST AID MEASURES
-----------------------	-----------------

Eyes Flush with large amounts of potable water. Eye lids should be held away the eyeball

to ensure thorough rinsing. Get medical attention if irritation persists.

Skin Remove contaminated clothing and wash with soap and water.

Inhalation Remove affected person from source of exposure. If not breathing, institute

cardiopulmonary resuscitation (CPR). If breathing is difficult, give oxygen.

Get medical attention.

Ingestion DO NOT induce vomiting unless directed to do so by a physician or poison control

center. Gently wipe or rinse the inside of the mouth with water. Never give anything by mouth to an unconscious person. Keep respiratory tract clear. Get medical

attention immediately.

Symptoms, Acute & Delayed

Immediate Medical Attention

Refer to Section 11 - Toxicological Information

All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials

SECTION 5 FIRE FIGHTING MEASURES

Fire Hazard

Hazardous Combustion Extinguishing Media

Explosion Hazard

Product is non-combustible

Carbon monoxide, carbon dioxide, Acrylic monomers and other potentially toxic fumes

Alcohol-resistant foam, carbon dioxide, dry powder or water fog

Containers can burst violently or explode when heated, due to excessive pressure

build-up.

Firefighting instruction Use standard procedure for chemical fires. Do not use direct water on substance.

Water and foam may cause frothing. Avoid breathing fire gases or vapors. Evacuate area. Keep upwind to avoid inhalation of gases, vapors, fumes and smoke. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. If a leak or spill has not ignited, use water spray to disperse vapors and protect men stopping the leak. Avoid discharge to the aquatic environment. Control run-off water by containing and keeping it out of sewers and watercourses. If risk of water pollution occurs, notify

appropriate authorities.

Protection Gear Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate

protective clothing. Standard Firefighter's clothing including helmets, protective boots

and gloves will provide a basic level of protection for chemical incidents.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Non-emergency Personnel

No action shall be taken without appropriate training or involving any personal risk. Keep unnecessary and unprotected personnel away from the spillage. Wear protective clothing as described in **Section 8**. Follow precautions for safe handling described in this safety data sheet. Wash thoroughly after dealing with a spillage. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch or walk into spilled material.

Environmental Precautions

Avoid release into the environment. Report releases as required by local, state and federal authorities.

Methods and Material for Containment & Clean up

Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of in an approved facility, **see Section 13**, **Disposal Considerations**.

SECTION 7 HANDLING AND STORAGE

Handling

Use personal protective equipment as described in Section 8. Do not handle until all safety precautions have been read and understood. Do not breathe vapors or spray mist. Do not get in eyes, on skin, or on clothing. Smoking, eating, and drinking should be prohibited in the application area. Follow standard hygiene measures when handling chemical products.

Storage

Store away from incompatible materials (see Section 10). Store in accordance with local regulations. Keep only in the original container. Keep container tightly closed, in a cool, well ventilated place. Keep containers upright. Protect containers from damage.
